Caps • Kåpor • Akselisuojat

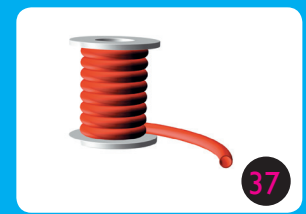

Plugs • Pluggar • Tulpat

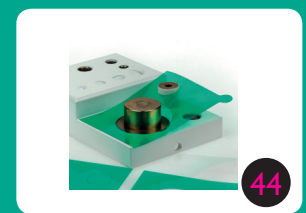

Tape • Tejp • Teipit

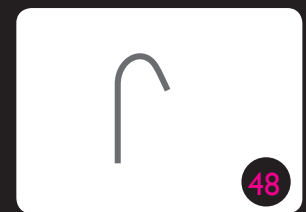

Sheet, cord, tube and other • Duk, profil, slang & övrigt • Letkut, profiilit ja silikonilevyt

Custom made & specialities • Kundanpassat & specialprodukter
Asiakaskohtainen & Erikoistuotteet

Hooks • Krok • Ripustuskoukut

WE SOLVE YOUR MASKING PROBLEMS!

Essentra Components goal is to be there for you as a customer and help you reach your goals and vision. We give you the best and easiest solution to your problem. Whether it's a simple standard solution or a customized solution for your company. Book a meeting with our engineers who all have expertise and long experience of masking solutions. They develop solutions that will speed up the process and ultimately reduces the overall cost of the masking process.

VI LÖSER ERA MASKERINGSPROBLEM!

Essentra Components målsättning är att finnas till för dig som kund och hjälpa dig att nå dina mål och visioner. Vi ger dig den bästa och enklaste lösningen på ditt problem. Vare sig det handlar en enkel standardlösning eller en kundanpassad lösning för just ditt företag.

Boka ett möte med våra tekniker som alla har spetskompetens och lång erfarenhet av maskerings-lösningar. De tar fram lösningar som snabbar upp processen och i slutändan minskar totalkostnaderna för maskeringsprocessen.

ME RATKAISEMME SUOJAUSONGELMANNE!

Essentra Components Oy auttaa sinua ja yritystäsi pääsemään tavoitteisiinne. Meillä on parhaat ja yksinkertaisimmat ratkaisut ongelmiinne olipa kyse vakio- tai asiakaskohtaisesta ratkaisusta.

Soita ja varaa aika teknoillemme, jotka käyttävät huippuosaamistaan ja pitkää kokemustaan suojausongelmien ratkaisemisissa. He keksivät ja tuottavat ratkaisuja, jotka nopeuttavat prosessia ja vähentävät täten suojausmenetelmien kokonaiskustannuksia.

Custom masking solutions

– efficient and effective!

Essentra Components can offer several of our masking tapes on a polyester liner. The tape can be used in a cutting plotter or for punching etc. The custom die-cuts are quick to apply and remove. They can even be fitted with pull tabs to speed up the process.

Kundanpassade maskeringsdetaljer

– bra och effektivt!

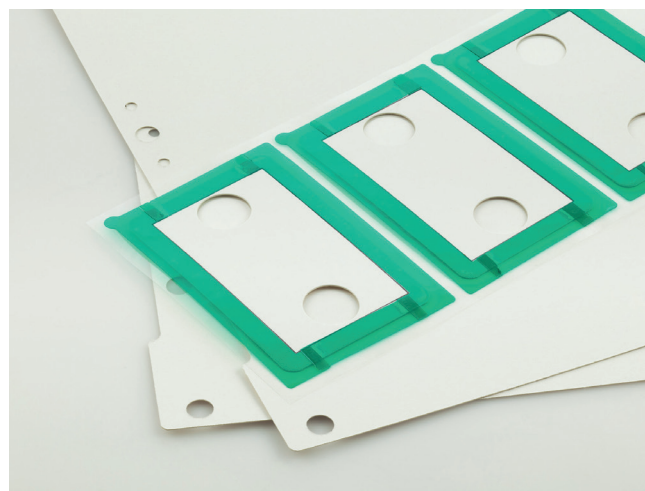

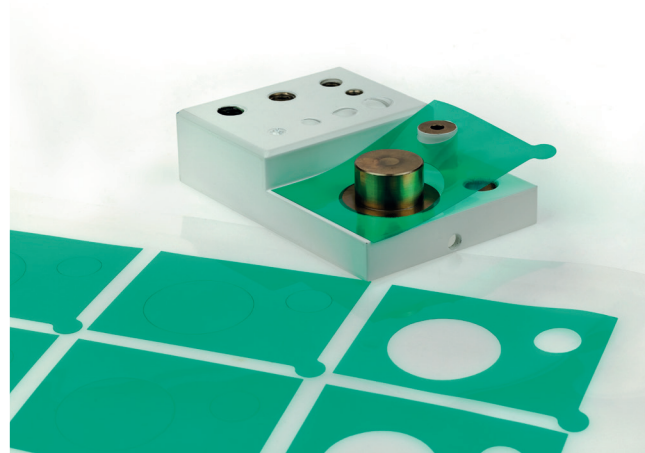

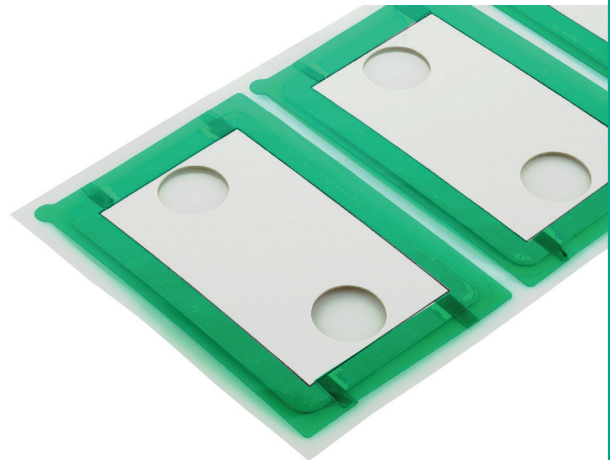

Essentra Components erbjuder flera av våra maskeringstejper liggande på en polyesterbärare (liner). Tejpen kan då användas i exempelvis en skärplotter eller vid stansning m.m vilket är extremt effektivt vid maskering av platta ytor. De kundpassade maskeringstejperna är lätta att applicera och ta bort. De kan dessutom förses med dragflikar för att ytterligare snabba upp appliceringen.

Asiakaskohtaiset suojausteipit

– hyviä ja tehokkaita!

Essentra Components tarjoaa useimmat suojausteipit polyesterisuojauskalvolla (liner). Teippiä voidaan käyttää esimerkiksi leikkauskoneessa ja stansaamisessa, joka on erittäin tehokasta tasaisten pintojen suojauksessa. Asiakaskohtaiset suojausteipit on helppo asentaa ja poistaa. Teipit voidaan sen lisäksi toimittaa vetoliuskoilla jotta soveltaminen sujuisi vieläkin nopeammin.

Magnetic Masking

Product is available in custommade die-cut shapes or on reels.

The magnetic foil is a material similar to that used in the labeling for magnetic L Plate and is ideal as reusable mask. We can supply per unit length for you to generate templates and cut masks as you wish. Let us offer the product you need. Remember that the mask must be removed before the oven is $> 80^{\circ}\text{C}$.

Magnetfolie $+80^{\circ}\text{C}$

Vi tar fram din specialmaskering i magnetfolie enligt dina önskemål. Vi kan även leverera den per löpmeter för egen tillskärning.

Magnetfolie är ett material likt den som används vid märkning för "ÖVNINGSKÖRNING" och passar mycket bra som återanvändbar maskering. Vi kan leverera som metervara för er att ta fram schabloner i, men även skära maskering enligt ert önskemål. Låt oss få offerera den produkt ni önskar. Kombinera gärna med hål och någon av våra pluggar för att enkelt få maskeringen på rätt plats. Tänk på att maskeringen måste avlägsnas före ugnen om denna är $>80^{\circ}\text{C}$.

Magneettilevy

Me kehitämme erikoissuojia magneettilevystä sinun toiveiden mukaisesti. Voimme toimittaa levyä myös metrimittalla jos haluat leikata itse.

Magneettilevy on samankaltaista materiaalia kuin "AJOHARJOITTELU" - kyltti ja sopii oikein hyvin uudelleen käytettävänä suojana. Me voimme toimittaa sitä metritavarana, josta voi stansata ja leikata suojia omien toiveiden mukaisesti. Antakaa meidän tehdä tarjous toivomastanne tuotteesta. Suosittelemme joitakin tulvistamme suojaamaan riittäviä magneettilevytuotteita, jotta suojaus pysyy oikealla paikalla. Muistathan, että suoja tulee poistaa ennen uunia jos lämpötila on $> 80^{\circ}\text{C}$.

Vacuum Formed Plastics

We can make special products suitable for your application at a low cost. This type of masking product reduces the masking time and always gives a perfect result

Vakuumformat

Vi kan ta fram helt kundspecifika lösningar till en låg kostnad med hjälp av vakuumformningstekniken. Dessutom kan vi enkelt ta fram prototyper för Era speciella behov.

Denna typ av skydd minskar maskeringstiden och ger alltid ett utmärkt resultat vid vätlack.

Vakuumiteknikka

Vakuumiteknikan avulla voimme kehittää asiakaskohtaisia ratkaisuja alhaisella

kustannuksella. Voimme helposti valmistaa myös prototyyppjä teidän erikoistarpeisiinne.

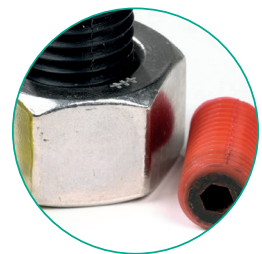

Tämäntyyppinen suojaus vähentää suojausaikaa ja saa aikaan erinomaisen tuloksen märkämaalauksen yhteydessä.

-  **Center Bore and Lug Nut Hole Mask**
-  En maskering som löser samtliga fälghål
-  Erikoistulppa vanteen suojaukseen

Rubber Masking

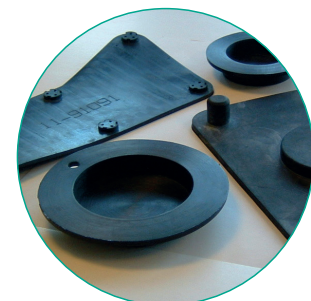

We also make masking protection in rubber (normal EPDM) according to your wishes. This type of protections also works very good during blasting. It's also very easy to remove old paint from the rubber. This makes them long living and cost effective.

Gummimaskering

Vi tar fram maskeringsskydd i gummi (normalt EPDM) helt enligt Era önskemål. Denna typ av skydd fungerar även utmärkt vid blästring. Skydden är normalt mycket enkla att avlägsna gammal färg på. Detta gör dem mycket långlivade och kostnads-effektiva.

Erikoissuojat kumista

Toimitamme tilauksesta erikoistuotteita, yleensä EPDM kumista, erilaisiin suojaustarpeisiin. Suojat kestävät jopa hiekkapuhalluksen.

Standard hooks

DEFINITION OF HOOKS: 300 x 1,5 P DV

PACKING: All stock on hand is packed in boxes with sheets of paper between the various layers. The boxes are module-shaped for easy packing and stacking.

ANGLES: Apart from straight and 90° angles, the hooks are also available in angles of 30°, 45° and 270°.

ALTERNATIVE ENDS: We can also manufacture different end shapes such as radial, straight angles etc.

SIZES: We manufacture Ø0.6-15.0 mm hooks, ranging in length from 20-2500 mm.

Standardkrok

KROKDEFINITION: Exempel 300 x 1,5 P DV

FÖRPACKNING: Alla lagerartiklar är packade i kartonger med pappersark mellan de olika lagren. Kartongformaten är moduluppbyggda för att smidigt kunna packas tillsammans.

VINKLAR: Förutom plan, 90° och 180° vinkel kan krokarna erhållas i exempelvis 30, 45 och 270° vinkel.

ALTERNATIVA ÄNDAR: Mot order tillverkar vi även andra utföranden av ändarna med exempelvis radier, raka vinklar etc.

STORLEKAR: Vi tillverkar krokarna i Ø0,6-15,0 mm och med längder från 20-2500 mm.

Vakiokoukku

KOUKUN MÄÄRITELMÄ: Esim. 300 x 1,5P DV

PAKKAUS: Kaikki varastotuotteet pakataan laatikoihin, koukkukerrostun välissä paperiarkki. Laatikat on helppo varastoida yhdessä.

KULMAT: Suorien, 90° ja 180° lisäksi voit tilata esimerkiksi 30°, 45° ja 270° kulmalla.

VAIHTOEHTOISET PÄÄT: Tilauksesta toimitamme mitattuna tehtyjä malleja, esim. asiakkaan määrittelemällä säteellä, suoralla kulmalla jne.

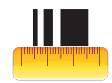

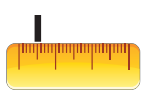

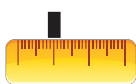

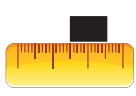

KOKOVAIHTOEHDOT: Toimitamme koukkuja ø0,6-15,0mm sekä pituudet 20-2500mm.
